As I explained to you on the phone the study was delayed because of the inability to catch crawfish. The meeting we attended on August 6 wasn't an EPA meeting it was your meeting and if you want notes, there was a lady taking notes for your group.. Rosemary I also told you to have Mr. Shuler call Bart, if he had any questions. I know they have spoken about the report on the phone, about the same issue with the crawfish samples. I don't understand why you sent me this note since we have discussed these things on a 45 minute telephone call on January 23, 2013.
I will call you as soon as I get a chance in the next few days

Sincerely,
Bill

February 5,2013

Good Afternoon Mr. Little,

We are sorry you were unable to submit the meeting notes from August 6, 2012 meeting. We were not aware that we were responsible for taking notes at the EPA meeting. We were depending on EPA to submit the original minutes.

It was stated that a final analysis of the samples taken from Devil's Swamp Lake Site would be available on or around December 21, 2012. Unfortunately, we have not received the(Hard Copy) of the report yet.The community has been very concerned as to why we have not called a meeting concerning this report. Please let us know if and when the Final Tier(Hard Copy) will become available so we can inform our community.

P.S. Thank you for contacting Ms. Zana Holliday. Ms. Holliday certainly took care of the matter for us.

Sincerely yours,

Ms. Rosemary Jones

Subject: Meeting Notes

Rosemary;

I'm sorry to say I don't have the meeting notes from the last meeting. They somehow got lost in the shuffle of conversion to a new laptop and I don't have the original written copy. I know you had a note taker so you will just have to use the ones you have, because mine are gone.

Sorry about that. Have a nice Thanksgiving and hopefully Santa will bring you a bunch of needed things for Christmas.

Sincerely Yours;
Bill
